

Putting the Z in Xero

If there's one thing Chamber of Commerce members tell us they need more of, it's time. Time for important stuff like growing their business – or just having a life. That's why we've teamed up with another great Kiwi company, Xero, to give you more of what you really need.

Feeding Z Card invoice data into Xero makes data input a breeze

Now you can get a copy of your Z Card invoice data fed directly into Xero. Which means no more manual entering of transactions – because it's all done for you. Just code and approve the transactions in Xero, and you can get on with all the other stuff you need to do.

It's flexible

Every business is different, so you can choose to have all your Z Card transactions fed through or just a summary. It's up to you.

Even better – it's free!

Z is New Zealand's only fuel company to offer this feed – and as a Z Card customer it won't cost you a cent.

Sign up now – it's easy!

It only takes two minutes to sign up – just visit z.co.nz/xero.

Putting the Z in Xero is just another way we are helping Z Card customers get on with what matters.

Terms and conditions apply.

Don't have a Z Card? Go to z.co.nz/chamber to sign up. You'll need the offer code **CCREWARDS to get started.**
